

BOHLALE NKOANA

Software Developer

Database Analyst

PROFILE

Confident, hard-working, and results driven. These adjectives best describe how I view myself and my approach to work. I am Bohlale Nkoana, Full Stack Developer Extraordinaire and while I'm currently in the beginning of my career, I hope to make the best out of it by learning and adding as much value as possible to my developer arsenal with the ultimate goal of seeing how far and how great I can get at this stuff.
